

Secure, compliant, and examinable.

Technology support for financial organizations under continuous scrutiny.

Financial organizations operate under examiner attention, client due diligence, and a threat environment that targets them specifically. BCS365 supplies the controls, evidence, and monitoring that stand up to all three.

WHAT THESE ORGANIZATIONS ARE UP AGAINST

- Examiners and clients request evidence that the internal team has no time to assemble.
- Wire fraud and business email compromise target the finance function directly.
- Retention, supervision, and recovery obligations apply to systems nobody formally owns.

WHAT BCS365 DELIVERS

- 24/7/365 SOC monitoring and incident response
- Identity threat detection for Microsoft 365
- Email security and wire fraud controls
- Endpoint data loss protection
- Retention, archiving, and supervision support
- Backup, disaster recovery, and restore testing
- Vendor and third party risk documentation
- vCISO advisory and examiner ready reporting

STANDARDS AND FRAMEWORKS WE WORK TO

- GLBA and the Safeguards Rule
- PCI DSS
- SEC and FINRA expectations
- NIST CSF
- SOC 2 Type II
- ISO 27001

WHY IT MATTERS TO YOU

Compliance drives budget

Regulatory deadlines create spend that does not get deferred.

High trust, high value

These customers pay for certainty and stay with providers who deliver it.

Referral density

Financial firms talk to each other, and good references travel.

SIGNALS TO LISTEN FOR

- "We have an examination coming and our documentation is behind."
- "Someone nearly sent a wire to a spoofed vendor."
- "A client sent us a due diligence questionnaire."

HOW TO BRING US IN

- Send the name and one sentence of context to your BCS365 contact
- Take 15 minutes on an opportunity huddle to confirm fit
- We join your customer call and run discovery. You lead it
- Register through AVANT as usual. Nothing commercial changes

Wire fraud and business email compromise are the fastest way into this vertical. The risk is concrete, recent, and usually personal to whoever you are talking to.

Capability summary only. Exact services, coverage, responsibilities, and commercial terms are opportunity specific and governed by the executed MSA and CFS.
